

Society for Pacific Coast Native Iris

2017-2018 SEED EXCHANGE

Before placing your order, please read the following information carefully.

Pricing:

All seed packets are now priced at \$3.00

Postage and handling for domestic orders is \$5.00

Postage and handling for international orders is \$10.00 for up to 20 packets (please pay for postage 2x if ordering more than 20 packets of seeds).

For Example:

- If you buy 20 packets and it's a domestic order you pay \$65
- If it's an international order of 20 packets you pay \$70

New Rule:

Items marked as S (small) or XS (extra small) are limited to *1 packet per variety per order*.

Two Easy Ways To Place Your Order:

Online: Members can view the seed list and photos of pod parents, place an order online (http://pacificcoastiris.org/spcni_seedexchange.html) and pay with PayPal. For our international members, please note that foreign currencies are accepted by PayPal. Once you have completed your order, please forward a copy via email to seedex@pacificcoastiris.org to ensure we receive a copy immediately (PayPal has been extremely slow to post payments from members who do not have a verified PayPal account).

By Mail: Orders can still be placed mail and paid for with a check. Be sure to include the following information:

- Item number, name, and number of packets per type. Including both the item number and name reduces confusion in case one or the other cannot be read.
- Your shipping address.
- A check made out to SPCNI. (Credit card payment is available only through PayPal, so please don't send your credit card number.)
- Your email address or a phone number in case of questions regarding the order. If you don't have email, please try to provide a friend's email address.
- Optional: You can send me a list of substitutions in case I run out of something. This happens a lot. When this happens, I will make substitutions from your list, give you more of other items you've ordered or send you available items. If you prefer not to receive substitutions, let me know. *Your unfillable orders will become a donation to SPCNI.*
- Please note that we have a large number of varieties that have a small quantity of seeds (S and XS). We anticipate that many of these varieties will sell out quickly, so please limit how many are ordered.
- Send your order and payment to:

SPCNI Seed Exchange
c/o Louise Guerin
2200 E Orange Grove Blvd
Pasadena, CA 91104 U.S.A.

Order Deadline:

The deadline to place your order is **January 31st, 2018**. Orders will be filled in the order they are received so get your order in early. Orders for multiple packets of the same seed lot will be filled, based on availability. Feel free to contact me if you have any questions about your order or if your order does not arrive by March 1st for domestic orders and March 15th for international orders.

How To Read the Listings:

The seed list is divided into two sections. The first section is NAMED CULTIVARS and includes registered and unregistered hybrids, named species selections and their progeny. This is where the complex hybrids are listed. The second section is SPECIES AND SPECIES TYPES and includes both wild-collected and garden-collected seeds of PCI species, natural hybrids and near species plants. Remember that any garden-collected seed in either section is open-pollinated and the listing name is for the pod or seed parent only.

The first column is the listing number and includes the year it is being offered. For example, 110.15 means listing number 110 from the 2015 seed exchange list.

In the second column you'll see the letters L, M, S, or XS. This refers to the quantity of seeds that we have available. In an effort to share each donation with as many people as possible, the number of seeds included in each packet will be based on the quantity available and the number of orders for that item. (XS packets will contain at least 6 seeds total.)

The third column includes the description and name of the pod parent or the cross that produced the pod parent. Names within parentheses identify the parentage of a single parent. Descriptions are taken from the AIS Iris registration, if available. All seeds are open-pollinated unless otherwise noted.

At the end of the third column, you will find the initials of the seed donor along with the year the seeds were submitted. Seeds from the same source plants donated in multiple years are grouped in a single listing with donation year indicated. For each year listed within an item, we've listed what size packet would be available if the most current year seeds sell out. Plants grown in different gardens, even though the same species or cultivar, are still listed separately. The freshest seed in each seed lot will be distributed first. Remember that PCI seeds remain viable for many years.

A **BIG Thank-You** to all who donate seeds! Donor participation makes the SPCNI Seed Exchange possible.

Happy growing,

Louise Guerin, Seed Exchange Chair
